Uniform-sign feasibility, 12-slot/4-pole, $\theta_s = 90^\circ$: signs conflict (−1 vs +1) -> infea

order m	physical meaning	sign $e^{-jm\pi/2}$	single sign serves all?
2	fundamental (working harmonic)	−1	yes
12	slot harmonic (k=1, odd)	+1	yes
24	slot harmonic (k=2, even)	−1	yes
36	slot harmonic (k=3, odd)	+1	yes
